

Diploma of Project Management (BSB51407)

This qualification concentrates on providing students with a sound understanding of the practical elements of project management, and will examine the factors that have an impact on project productivity.

The program offers an integrated and accelerated approach and is an excellent investment in rounding out your project management capabilities.

Designed for

Experienced project managers or highly experienced project team members who

want to learn practical tools and techniques in project management.

Learning outcomes

- Implement scope, time, cost and quality management
- Manage risk, communications, resources and procurement
- Finalise the project, achieving business benefits
- Manage relationships with organisations/industry bodies, oversight committees and complex networks of stakeholders and staff
- Take action to get problem projects back on track
